

The magnet and pole pieces are enclosed in a housing which has an impact resistant polypropylene thread. The front surface is then ground. This unit can be adjusted inside the housing by screwing or unscrewing

MS Series

Model	Holding Power (Kg)	A	B	C	D
Ms 4	4	33.3	20.5	16.5	25
Ms 6	6	36	20.5	18.5	28

Colour: White, brown
Fixing: Mounted by means of two 3mm round headed screws. Can be fixed through the two round holes or through the two slots for greater adjustability.
Counterplate: Use a W or a Z counterplate with the same or higher reference number

Ps Series

Designed for mass produced or self-assembly knock-down furniture.

Model	Holding Power (Kg)	A	B	C	D	E	F
Ps 4	4	16	16	19	26	10	7
Ps 6	6	19	19	20	29	12.5	7

Colour: White, brown, black, beige
Fixing: This unit is supplied ready fitted. Drill a dia 8mm hole into the panel (according to its hardness). The magnetic catch is fitted using a mallet. No screws required. The dowel has been designed to provide a sturdy fit in wood and will not turn nor splinter the panel.
Counterplate: Use a W or Z counterplate of the same or higher reference number
 Series W Counterplates

The most commonly used counterplates: round counterplates fitted by one single countersunk screw. The screw head must not protrude beyond the ground front surface. When fitting this counterplate, do not tighten it down fully in order that it can take up some play. Available in six sizes: for round magnets of the same or lower reference number.

Model	A	B	D
W 4	12	2.5	2.5
V 4	16	2	3.8
W 12	15	3	3.2
W 16	20	4	3.2
